1

COVID-19 vaccines are **FREE** for everyone, regardless of your insurance or citizenship status.

2

It is **recommended** by the CDC and Sickle Cell Disease Association of America that SCD warriors and their families **get vaccinated**.

3

It is **SAFE** to get a COVID-19 vaccine if you are on common SCD medications like: Endari, Hydroxyurea, Oxbryta, Adakveo, JadeNu, Folic Acid & other pain medications.

4

At most, SCD warriors report **mild discomfort** after a COVID-19 vaccine, but they are able to manage it with standard pain medicine at home.

5

Some SCD warriors **don't have a spleen**, which makes it even harder for their body to fight COVID-19.
